I wish to advise you that the Board of Trustees has had an opportunity to discuss the set of plans you submitted for the Early Childhood Centre to be sited at the back of the hall area in our school.

The Board have given full approval in regard to the siting of the Centre, the proposed car parking area to be developed, and both the interior and exterior design of the building itself. The Board are particularly delighted, and wish to thank you for the consideration you have given to the Early Childhood Centre building design which blends perfectly with our recently built whare and whare kai.

The Board of Trustees looks forward to working with Signature Homes throughout the building process. The Board wishes to acknowledge and thank you for your excellent consultation and communication through the earlier stages of this project.
